

Comments and suggestions for Progress Report 2015

- Provide paid sick days addicts of drugs which decide on treatment -Make changes in the Law on Health Insurance;
- It is necessary to establish a register of addicts of psychoactive substances, and enhance research capacity in this area - the last survey at the national level was carried out in 2006;
- At the Institute for execution of criminal sanctions there is a deficit of medical staff to provide adequate health care during detoxification drug users who come to prison;
- At the Institute for execution of criminal sanctions is necessary to create an internal protocol of when using excessive amounts of narcotics - In recent years there has been a number of deaths due to overdose;
- Compulsory measure of drug treatment by the court it is impossible to implement in a timely manner, because the Special hospital Dobrota has only nine beds to accommodate drug addicts. The accommodation capacities are insufficient;
- Decentralize social services and make a cost-benefit analysis for testing HIV and HCV virus in the community - Croatian model;
- Establish prevention programs for different age groups and the programs carried out systematically. For prevention activities of drug abuse is necessary to standardize prevention programs. Allocate funds from the budget or other resources to implement these activities.
